

What Do You Call It When 50 People Stand on a Wooden Dock?

Cross out the letters above each correct answer. When you finish, write the remaining letters in the spaces at the bottom of the page.

In Exercises 1-4, fill in the blank.

- If the sum of the measures of two angles is 180° , the angles are _____.
- If the sum of the measures of two angles is 90° , the angles are _____.
- When two angles in a plane share a vertex and a side but no common interior points, they are called _____ angles. Example: $\angle AOB$ and $\angle AOD$.
- When two lines intersect, they form two pairs of "opposite" angles called _____ angles. Example: $\angle AOB$ and $\angle COD$.

In Exercises 5-14, use the given angle measures to find the required ones.

5. $m\angle EGH$

6. $m\angle XWY$

7. $m\angle DAC$

8. $m\angle MON$

9. $m\angle STR$

11. $m\angle JNK$

13. $m\angle YOU$

14. $m\angle UOV$

10. $m\angle PTS$

12. $m\angle MNL$

In Exercises 15-18, use an algebraic equation to find the measure of the angle labeled x .
